

FALL SPORTS 2009

In order to play a sport in the fall there are a few things that students need to do. They should check with their school nurse to see if they have a current sports physical on file. We offered many chances to have the exams done in school but if the student did not take advantage of these offerings they need to have an exam done by their own doctor. These exams have to be on the blue form. [Click here](#) to download and print all medical forms.

High School sports begin in August. If you have your own doctor do the physical, all forms should be sent to the following address as the school nurses are not in during the summer.
