

FIELD TRIPS AND EXCURSIONS

The Board of Education recognizes the desirability of providing off-campus experiences which will enhance the educational program of the school system. The Superintendent of Schools, or designee, will determine the frequency and content of class field trips. Each student must secure the permission of his/her parent or guardian before participating in such activity.

Factors relevant in consideration of approval of such field trips may include the relationship to the curriculum, the distance of the trip, availability of transportation, the cost involved, weather conditions, and full utilization of transportation. In order to make necessary transportation arrangements, all requests for day field trips must be submitted to the appropriate Building Principal at least 4 weeks prior to the trip date.

Overnight Field Trips

Trips in excess of one day involving overnight travel should be approved by the Superintendent of Schools prior to making any commitments or arrangements. Requests for overnight trips should be made at least 3 months in advance of the planned event.

Transportation

When the district provides transportation to students on a school-sponsored field trip, extracurricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the district unless:

1. the parent or legal guardian of a student participating in such event has provided the district with a written notice authorizing an alternative form of return transportation for the student; or
2. intervening circumstances make such transportation impractical.

Where intervening circumstances have made transportation back to the point of departure or to the appropriate school in the district impractical, a representative of the district shall remain with the student until such student's parent or legal guardian has been contacted and the student has been delivered to his/her parent or legal guardian.

Medications

The district shall accommodate the needs of students who must take medications during a field trip. Depending on the student's needs and abilities to administer and carry their own medications, district staff or other appropriate adults (e.g., the voluntary participation of the student's parents/guardians or a designee appointed by them) may need to be

available during the trip for assistance. Regulation [5420-R](#), Student Health Services Regulation, outlines the requirements and responsibilities for these scenarios. If no district staff or other appropriate adult is available, and if the medication schedule cannot be adjusted by the student's prescriber, the trip will either be rescheduled or canceled.
