

WPCSD

Zoom – Screen sharing videos (Swank, Amazon Prime, Netflix, YouTube, etc.) from a PC.  
(if it's not working correctly).

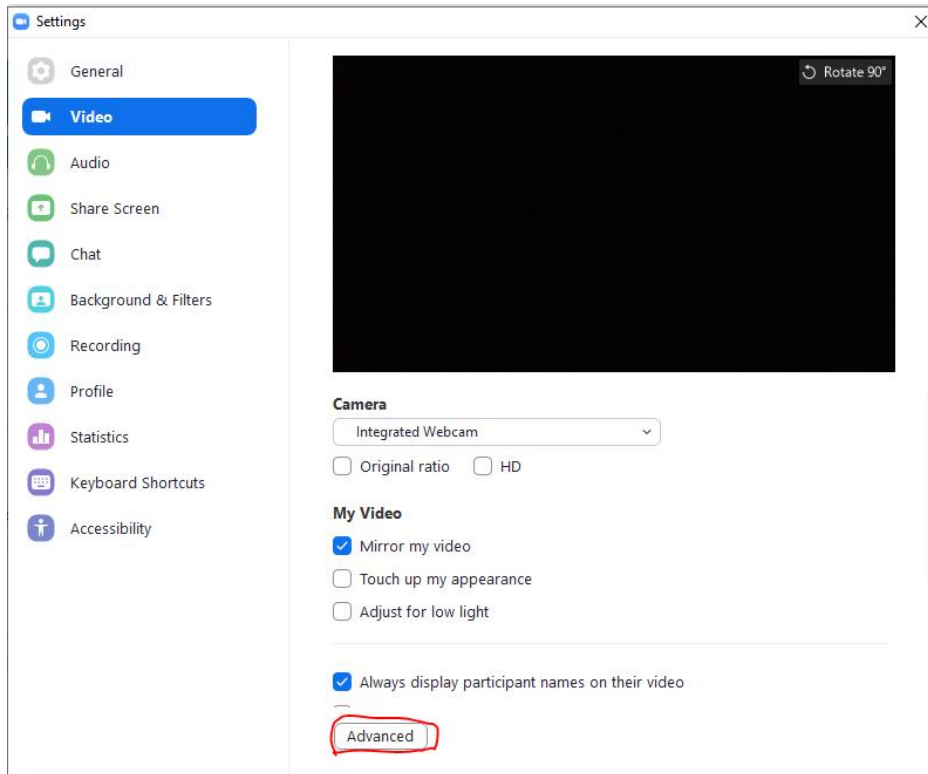

1. Sign into Zoom client (software icon on the desktop), not the web browser

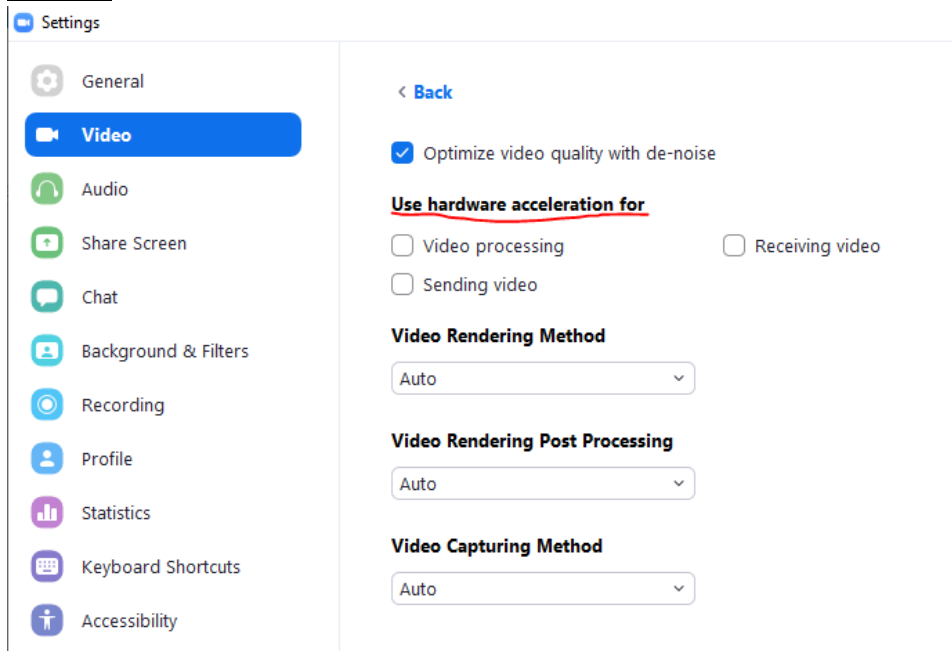

2. Click on your profile icon in the top right corner, then click **Settings**.

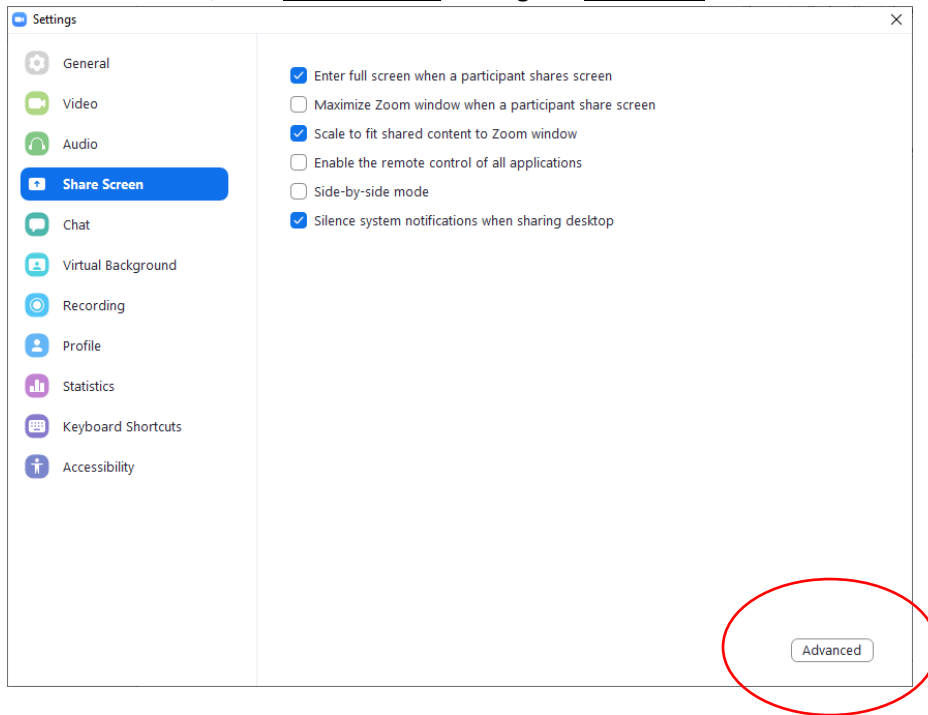

3. On left menu, click Video, then go to Advanced (bottom of screen).

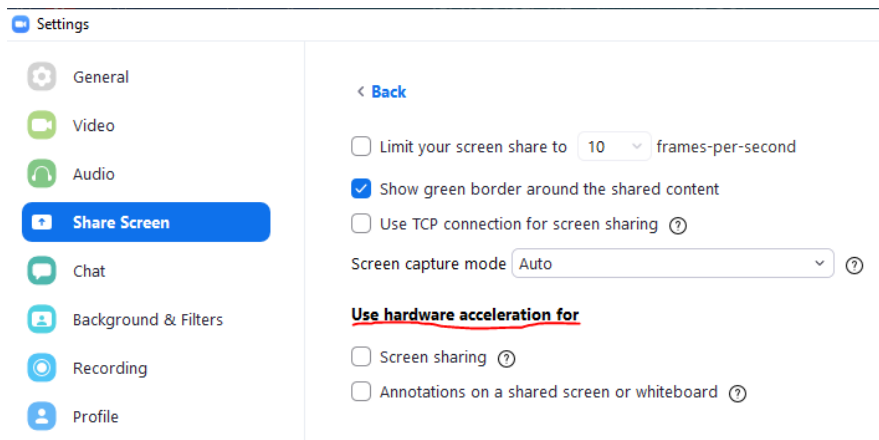

4. Uncheck all boxes under hardware acceleration.

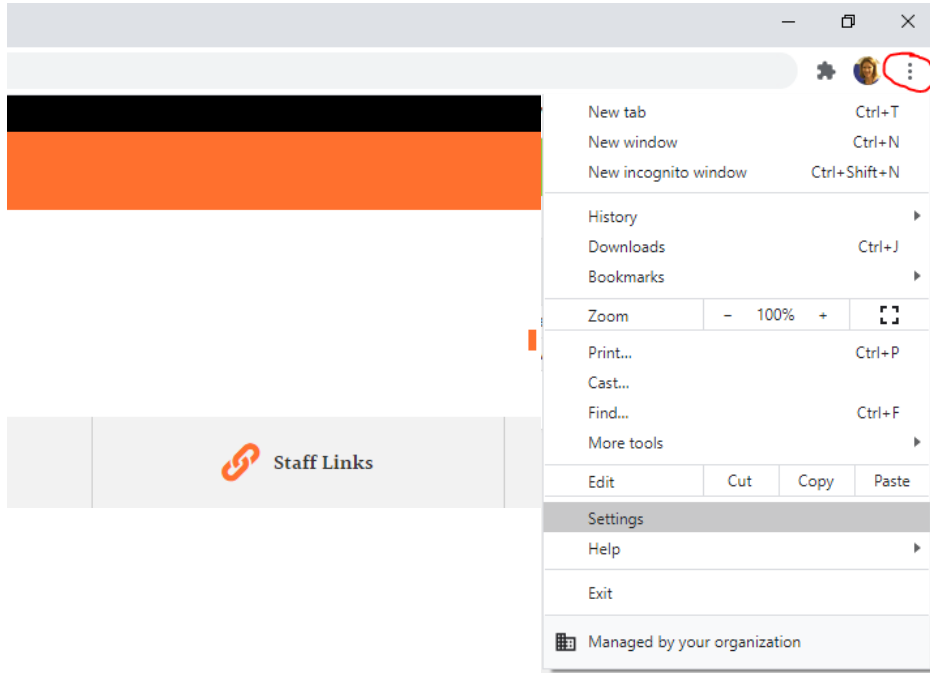

5. On the left menu, click **Share Screen**, then go to **Advanced**.

6. **uncheck** all boxes for hardware acceleration.

7. Open **Google Chrome**, click on the three dots in the top right and click **Settings**.

8. On left menu, click **System**  
Switch hardware acceleration to off position (it will turn gray), click **Relaunch**.
