Dear Parents or Guardians,

Welcome to the 2021-2022 school year at the White Plains City School District. With a new school year upon us, our goal is to provide your students with the safest transportation to and from your home every day. This year, bus route information will be made available after August 23rd through the Parent Portal of Infinite Campus, our student data management system. This process safeguards information, provides real-time updates, increases operational efficiency, and eliminates costly paper mailings.

We recognize that not all parents/guardians may be familiar with the parent portal. We ask that you contact the transportation office if you prefer a traditional mailing as you familiarize yourself with the parent portal. Request can be made by emailing the office at transportation@wpcsd.k12.ny.us.

Student/Parent/Guardian Portal information is available on the district webpage. [Click here to access the Portal Information page](#) or copy the following URL: <https://www.whiteplainspublicschools.org/domain/92>. Step-by-step instructions on how to get started can be found on the following link: [IC Portal Information & Videos](#).

Due to the high volume of request, please allow 3-5 business days to receive a password reset or activation key.

Parents/guardians of incoming kindergarten students will receive additional information in the mail.

Students should continue to use ZPass RFID cards that were previously issued. ID cards will be distributed to new students, and incoming kindergarten students at their school of attendance. Please contact the transportation office if a card has been misplaced.

We look forward to continuing to provide your student with safe, efficient, and reliable transportation.

Sincerely,

Sergio A. Alfonso
