(4) In accordance with FERPA, Section 2-d and the District’s Student Record Policy, parents have the right to inspect and review the complete contents of their child's education record;

(5) The District has the following safeguards in place to protect student data, including personally identifiable information stored or transferred by the District: Centralized databases utilizing the Advanced Encryption Standard (AES) with minimums of 128 bit key encryption; computer servers are centralized in the district datacenter, which is locked and alarmed; utilizing a variety of intrusion detection software and policies, including firewall protection services of BOCES, antivirus software, network monitoring via WhatsUpGold software; strong/complex password policy with a change in effect every 90 or 180 days depending on the exact software system; constant training and reminders of users to not share usernames or passwords on any database system; annual audit of the safety systems by district’s internal auditor.
